Display Mounting Solutions

Why use an Adjustable Monitor or Notebook Arm?

- Better Ergonomics – Lets you position your display at the correct height and distance for optimal comfort and reduced risk of developing repetitive stress injuries
- Free Up Desk Space – So you can be more organized and make better use of your workspace
- Great for Shared Workstations – If more than one person uses the same workstation, everyone can adjust to an ergonomically correct position, quickly and easily
- Collaborate at Your Desk – Easily show others what is on your screen, then return it to your preferred position for individual work
- The Productivity Benefits of Dual Displays – Two displays, mount two monitors or one monitor and one notebook. 3M Display Mounting Solutions offer effective dual display configurations to help boost productivity

Easy Adjust Solutions

Monitor arms work best when adjustments are quick and easy. Each of these models feature easy-adjust technology to assure just that. Each adjusts effortlessly with just a finger and is designed to stay in place, right where you've positioned it. An infinite range of height settings allows you to adjust to a precise position within the defined height range. This durable and reliable technology enables thousands of motion cycles without failing.

MA220MB Easy Adjust Dual Monitor Arm

Place your LCD monitor and a notebook or two LCD monitors in just the right position – off your desktop! These monitor arms are infinitely-adjustable and allow ideal ergonomic positioning and help regain desk space. Arms move up, down, forward and back with just a touch. Height easily adjusts up and down through a 13" range. Swivels 180° and tilts forward and back 80° for optimal ergonomic positioning. Flexible design includes clamp or grommet mount systems. For monitors up to 20 lbs. Fits both 75 mm x 75 mm and 100 mm x 100 mm VESA-D monitor bolt hole patterns. 5 year warranty.

Two screens are better than one!

A study by the University of Utah demonstrated that worker productivity increased with the use of two displays compared to using just one.

Productivity benefits: multi-monitor vs. single display

- 33% Fewer errors
- 18% Faster in errorless editing of multiple tasks
- 16% Faster edits throughout task
- 10% More errorless edits generated
- 7% Faster to perform tasks
- 6% Quicker to access tasks (opening, sizing, aligning windows, etc.)

Choose the 3M Keyboard Tray that's right for you in 2 easy steps:

1 Select the arm type and track length

- Corner workstations require a long track – 21.75-23"
- Regular shallow workstations (18-22" under-desk depth) require a short track – 17-17.75"
- Regular deep workstations (23" + under-desk depth) can accept short or long-tracked keyboard trays

Sit/Stand Easy Adjust Arm

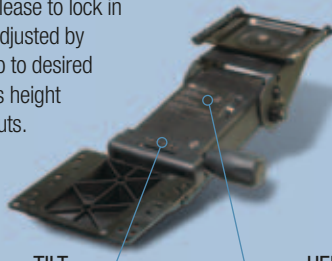

Easy to adjust, raises up to 10" above mounting surface for sitting for standing posture for optimal ergonomic benefit. True sit/stand – fits 5th to 95th percentile of US population.

23" Track
Fits Corners

Easy Adjust Arm

Easy to adjust – just tilt platform, adjust, then release to lock in height. Tilt is adjusted by dialing tilt knob to desired angle. Includes height and tilt read-outs.

†Battery Saving Mousepad Designs Products identified by this symbol feature 3M™ Precise™ Optical Mousing Surfaces with battery saving designs which extend the battery life of wireless optical mice up to 75%. Our lab testing has shown that these surfaces draw less current and thus offer 75% more battery life. The lab tests were done using mice from the leading manufacturers in the marketplace (Microsoft

and Logitech) in conjunction with batteries from the leading battery manufacturers in the US (Energizer, Duracell and Rayovac). Our battery saving mousing surfaces feature the 3M micro-textured technology used to make 3M™ Precise™ Optical Mousing Surfaces.

**Angle and height position can affect sheet capacity. Test before using.

††Fluorescent bulb contains mercury. Visit www.lamprecycle.org for proper disposal information.

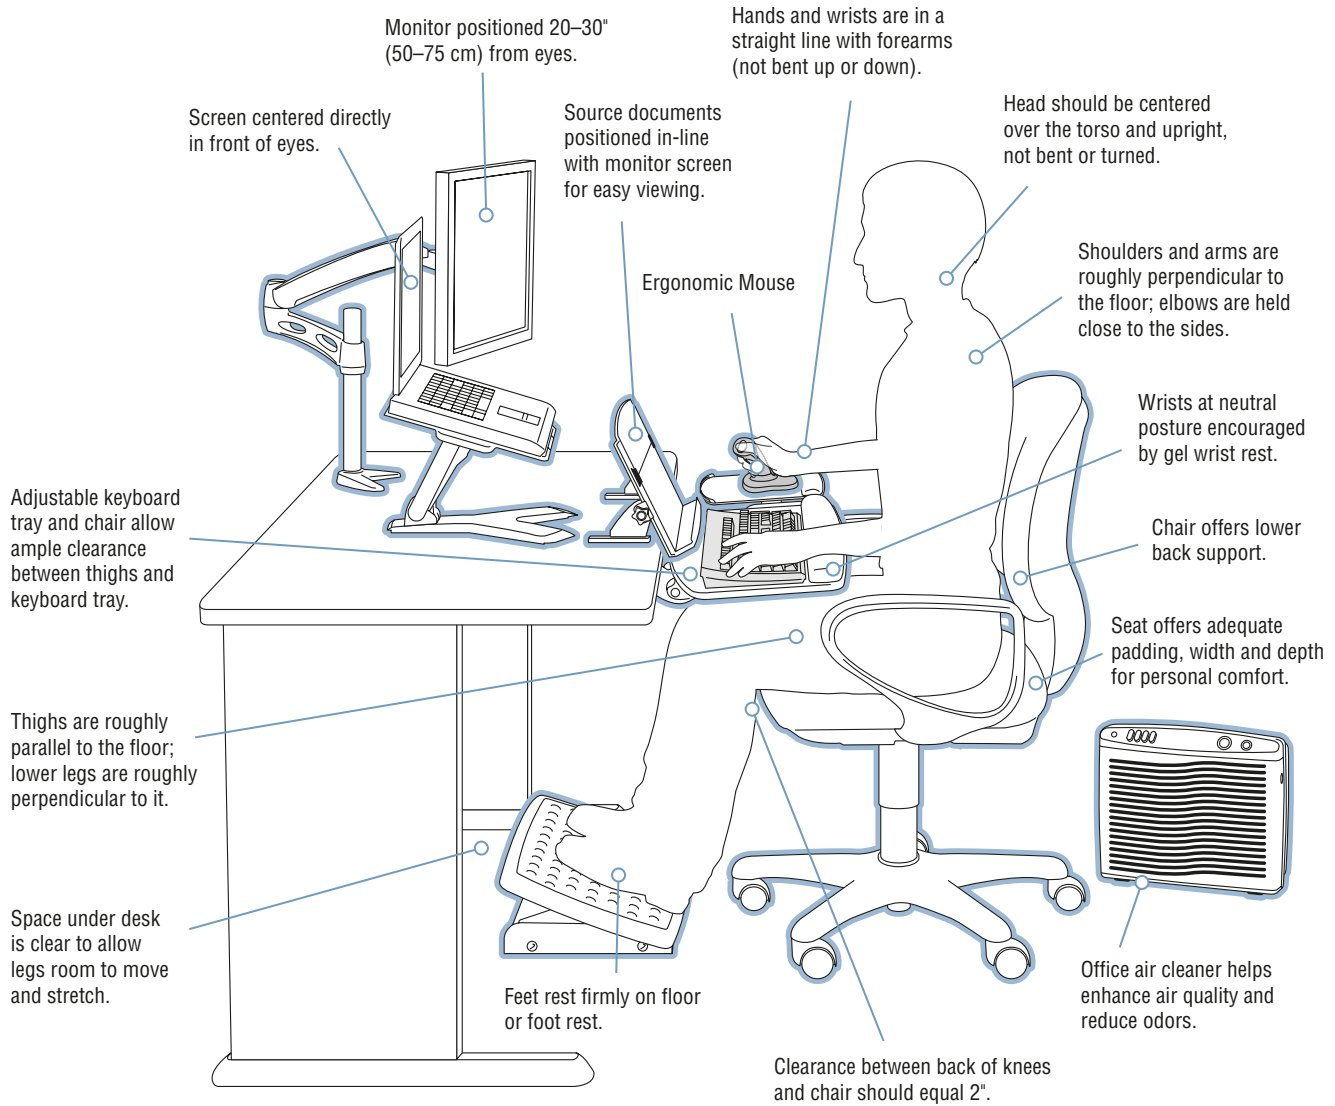

‡‡The amount of reflected glare reduction in reading materials is dependent on viewing angle. Glare reduction is reduced by 50% at a 30-degree reflection angle from light to eye, and reduced 80% at a 60-degree angle from light to eye.

‡‡‡Light tint glass offers 45% transmission, which means more light passes through than with standard tint glass (31% transmission).

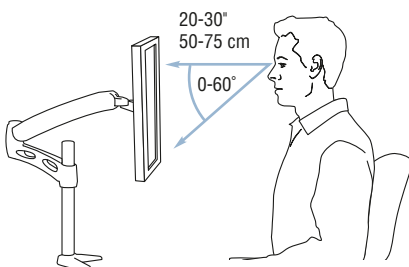

Workstation Guidelines

For Optimal Personal Comfort

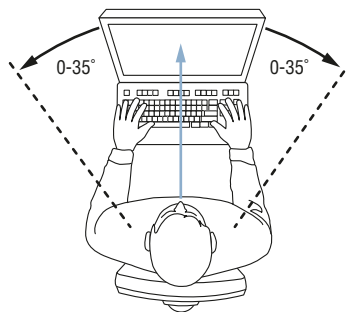

Use these guidelines to set up your workspace to ensure good ergonomic posture and to attain optimal personal comfort.

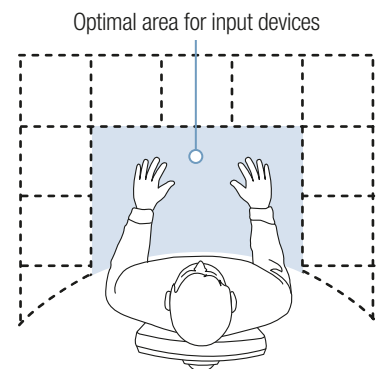

Recommended Positioning

To avoid eyestrain, position your monitor within a comfortable viewing distance, at or below eye level, and within your 60° viewing field.

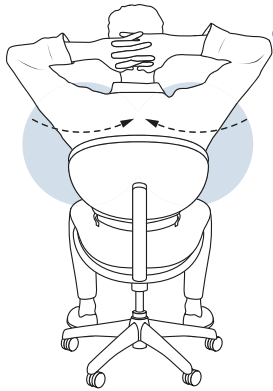

Position source documents in line with your screen, and no more than 35° to either side, to avoid excessive turning or bending of your neck.

Place input devices within the recommended area to avoid strain on your wrists, arms and hands.

Exercises

To Promote Ergonomic Comfort

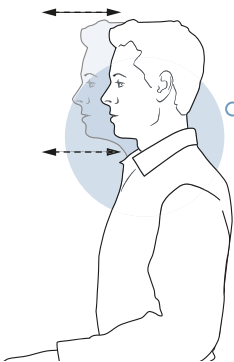

Executive Stretch - for upper back, chest and shoulders

Sit upright in your chair. Clasp your hands behind your head, keeping your elbows in line with your ears. Press your elbows back as far as possible, squeezing your shoulder blades together. Relax, then repeat 3 times.

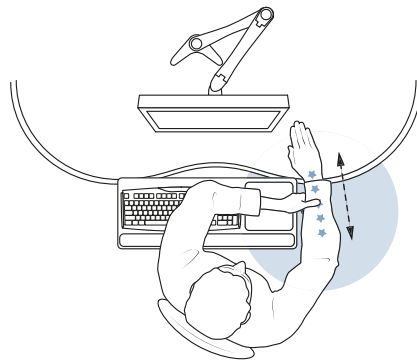

Focusing Technique - for eye relaxation

Focus on an object at least 20' away or as far from your work area as possible, then move your eyes around and look at other objects. Look back at your computer screen. Repeat throughout the work day.

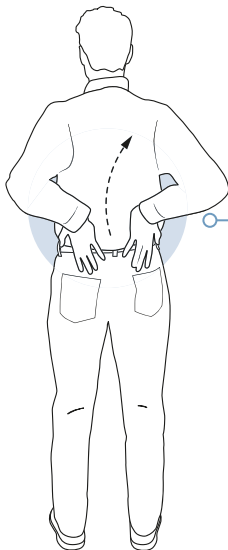

Neck Glide - for neck

Sit comfortably upright and look straight ahead. Keeping your head and ears level, glide your head back as far as it will go. Now glide your head forward. Repeat 3 times.

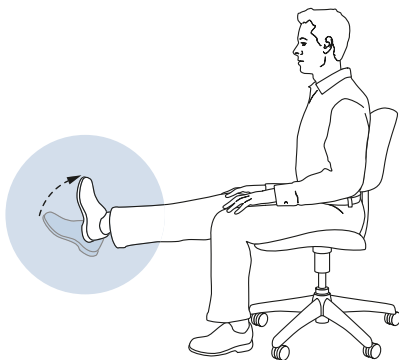

Arm Massage - for forearms

Sit at a desk or table. Place your arm in front of you with your hand palm-down. Use your thumb to press firmly on your opposite arm, moving it slowly from your wrist to elbow and back down. Repeat 3 times.

Reverse the Curve - for back and hips

Stand with your feet slightly apart. Place your palms in the curve of your lower back. Keep your chin down and focus on an object in front of you. Bend backward, supporting your lower back with your hands. Don't lock your knees. Hold for 5 to 10 seconds. Repeat 3 to 5 times.

Leg Extension - for legs and lower back

Sit in a chair and straighten one leg directly in front of you. Flex your foot by pointing your toes toward the ceiling. Flex hard for 5 seconds, then release. Repeat 3 to 5 times. Return foot to floor and switch legs.

There are many possible causes for physical discomfort. If you are experiencing symptoms that persist for more than two weeks or are severe enough to interfere with your job or personal activities, consider seeking medical assistance.
