

HARKAR-AE

Drawing from a rich heritage of acoustic innovation, Harman Kardon® AE headphones feature an aluminum-alloy housing for extended bass and true low-frequency reproduction. Optimized 3/8-inch (9-millimeter) drivers deliver extended bass response, wide dynamic levels, high sound-pressure levels and sonic clarity at all volume levels. The in-ear headphones include silicone sleeves in three sizes for optimum comfort and an Apple three-button remote with built-in microphone for phone calls. Lightweight and comfortable, AE headphones let you take Beautiful Sound with you wherever you go. From high-quality materials to exceptional acoustic performance, these new headphones reflect the Harman Kardon commitment to innovative industrial design and uncompromising sound quality.

HARKAR-NI

Drawing from a rich heritage of acoustic innovation, Harman Kardon® NI headphones employ optimized drivers that produce accurate bass and sound clarity even at low volumes. The in-ear headphones feature silicone sleeves in three sizes for optimum comfort and an Apple three-button remote with built-in microphone for phone calls. The rectangular shape of the black sculpted housing complements the style of companion iPhone, iPad and iPod products. Lightweight and comfortable, NI headphones let you take Beautiful Sound with you wherever you go. From high-quality materials to exceptional acoustic performance, these new headphones reflect the Harman Kardon commitment to innovative industrial design and uncompromising sound quality.

HARKAR-CL

Harman Kardon® CL headphones feature an exclusive acoustic system that integrates superb mechanical design, materials and electronics. User-exchangeable bows, self-adjusting housings, soft leather cups and slow-retention ear-cup foam ensure a comfortable fit and an optimal acoustic seal around the ear. Uniquely balanced 1-5/8-inch (40-millimeter) drivers enable the CL to outperform other headphones in extended bass response. Lightweight and comfortable, CL headphones let you take Beautiful Sound with you wherever you go. From high-quality materials to exceptional acoustic performance, these new headphones reflect the Harman Kardon commitment to innovative industrial design and uncompromising sound quality.

HARKAR-BT

Harman Kardon BT headphones with Bluetooth® offer more than a musical escape. They let you escape from wires. They employ AAC and apt-X® coding for the highest quality wireless audio streaming and incorporate a built-in microphone and playback buttons on one of the ear-cups. It's the tangle-free, hassle-free way to enjoy your music. The USB-rechargeable BTs have a battery that lasts up to 12 hours. And unlike other Bluetooth headphones, even when the battery dies, BT headphones will still work when connected by the supplied bypass cable to a playback device. They also feature a closed-back design that keeps outside noise out and keeps your listening experience for your ears only. Lightweight and comfortable, BT headphones let you take Beautiful Sound with you wherever you go.
