## INTEGRATED HOME THEATRE SYSTEMS

Product	Description	Retail Price
	<p><b>Harman Kardon® HS 210</b></p> <p>You've come to expect Harman Kardon systems to deliver advanced performance characteristics. But to be worthy of our name, our systems must also be easy to set up and use. Each of our integrated home theater systems features a high-performance A/V receiver and DVD player combined into a single, beautifully crafted component, keeping system connections to a minimum. And each system is controlled by a single, intuitive remote (a setup that, to our minds, ought to be required by law). These are highly sophisticated, all-inclusive home entertainment systems. But you won't need an in-house technician to enjoy them.</p> <p>SAP: HS 210/230 <span style="float: right;">EAN: 0282922574764</span></p>	3470
	<p><b>Harman Kardon® HS 280</b></p> <ul style="list-style-type: none"> <li>• Integrated system that includes A/V receiver, DVD player and loudspeakers</li> <li>• Dolby® Virtual Speaker technology</li> <li>• HDMI™ output</li> <li>• Up-scaling to 1080p</li> <li>• Progressive-scan imaging</li> <li>• Playback of AVI and MP4 compressed video files</li> <li>• 200-watt active subwoofer</li> <li>• USB 2.0 host</li> <li>• Simultaneous MP3 and (HD) JPEG playback</li> <li>• WMA playback</li> <li>• Playback from networked devices</li> <li>• 192kHz/24-bit DACs</li> <li>• Black-lacquer finish</li> </ul> <p>SAP: HS 280/230 <span style="float: right;">EAN: 0282925082334</span></p>	3850

## HOME SYSTEMS WITH BLU-RAY

Product	Description	Retail Price
	<p><b>Harman Kardon® BDS 800</b></p> <p>Stylish, versatile and supremely easy to use, the compact harman kardon BDS 800 is the only entertainment system most homes will ever need. The powerful BDS receiver is integrated with a versatile Blu-ray Disc™/DVD/CD player and FM tuner (with RDS) to reproduce movies and music from virtually any source with all the clarity and fidelity of the original material. It even plays iPod or iPhone files via a harman kardon The Bridge IIIIP dock (not included). Voice-matched satellite and centre-channel speakers with dual flat-panel midrange drivers deliver rich, realistic audio that envelops you in an uncanny 360-degree soundscape, while a 200-watt powered subwoofer adds deep, satisfying bass that comes at you from every direction.</p> <p>SAP: BDS 800/230 <span style="float: right;">EAN: 282922576058</span></p>	5300
	<p><b>Harman Kardon® BDS 700</b></p> <p>With a powerful receiver integrated with a Blu-ray Disc™/ DVD/CD player and FM tuner (with RDS), the harman kardon® BDS 700 is a beautifully compact system that transforms the home entertainment experience, reproducing movies and music from virtually any source with all the clarity and fidelity of the original material. It even plays iPod or iPhone files via a harman kardon The Bridge IIIIP dock (not included). Identical, voice matched satellite speakers surround you with rich, realistic 3D sound. A dual-driver centre speaker delivers crisp, distinct movie dialogue, while a 200-watt, downward-firing powered subwoofer adds the deep, satisfying bass that's so important in today's most popular movies.</p> <p>SAP: BDS 700/230 <span style="float: right;">EAN: 282922583810</span></p>	4280
	<p><b>Harman Kardon® BDS 600</b></p> <p>With a single, sleek soundbar speaker to supply the left-, center- and right-channel audio signals, and compact receiver with an integrated Blu-ray Disc™/DVD/CD player and FM tuner (with RDS), the Harman Kardon® BDS 600 is among the smallest and simplest of all the systems that bring true cinema excitement home. The BDS receiver has the power to reproduce movies and music from virtually any source with all the clarity and fidelity of the original material. It even plays iPod or iPhone files via a Harman Kardon The Bridge IIIIP dock (not included). The soundbar delivers crisp, distinct movie dialogue and outstanding stereo imaging, while a 200-watt downward-firing powered subwoofer adds the deep, satisfying bass that is so important in today's most popular movies. With Dolby® Virtual Speaker technology, the BDS 600 can even create a realistic 5.1-channel soundscape from the soundbar and subwoofer alone. With all the latest features and technologies, an intuitive on-screen menu system for foolproof setup, and performance characteristics that only Harman Kardon engineering can deliver, the BDS 600 takes the complexity out of the home theater equation.</p> <p>SAP: BDS 600/230 <span style="float: right;">EAN: 282922581694</span></p>	4080

## HOME SYSTEMS WITH BLU-RAY

Product	Description	Retail Price
	<p><b>Harman Kardon® BDS 400</b></p> <p>Many people find traditional home theatre setups too complicated for their needs and too cumbersome for their listening areas. The harman kardon® BDS 400 system is neither. With a powerful receiver integrated with a Blu-ray Disc™/DVD/CD player and FM tuner (with RDS), plus just two front speakers and a subwoofer, the BDS 400 is simpler than many stereo music systems, yet it's vastly more capable. Able to reproduce movies and music from virtually any source with all the clarity and fidelity of the original material, the BDS 400 delivers immersive listening experiences. It even plays iPod or iPhone files via a harman kardon The Bridge IIIP dock (not included). With all the latest features and technologies, an intuitive on-screen menu system for foolproof setup, and performance characteristics that only harman kardon engineering can deliver, the BDS 400 may be the only entertainment system many homes will ever need.</p> <p>SAP: BDS 400/230 EAN: 282922575686</p>	<p>4080</p>
	<p><b>Harman Kardon® BDS 300</b></p> <p>As a compact, sleek, completely integrated home theatre system, the harman kardon BDS 300 comes with everything you need to create an immersive entertainment experience – right at home. The BDS 300 turns the ordinary into extraordinary – with a Blu-ray Disc™/DVD/ CD player and FM tuner, 200-watt subwoofer generating bass from every direction and Dolby® Virtual Speaker reproducing the equivalent of 5.1-channel surround sound – from just two speakers. It even has an HDMI® output (delivering video and audio at the highest-quality HD 1080p standard) and a front-panel USB port so you can import music, videos or picture files stored on external devices. And by including all the cables and speaker wall mounting hardware you'll need to get up and running with ease, the BDS 300 is designed to be a top-quality audio/video performer – and star of whatever room you put it in.</p> <p>SAP: BDS 300/230 EAN: 282922583742</p>	<p>3870</p>
	<p><b>Harman Kardon® BDS 5</b></p> <p>Designed to bring movie theatre thrills right to your home, the harman kardon BDS 5 combines an impressive range of today's most sought-after features and technologies into one sleek, top-of-the-line A/V receiver. Specializing in 'wow' factor, the BDS 5 has a Blu-ray Disc™ player, 5.1-channel digital amplifier and the very latest in Dolby® and DTS® surround sound decoding – all blended into a single, outstanding system. Delivering ultra-faithful sound reproduction with the highest-resolution picture and sound quality possible (thanks to an HDMI™ 1.3a output), the BDS 5 entertains at every turn – and even has an intuitive on-screen menu to get novices up and running with the greatest of ease. If you want the BDS 5 as part of a complete package, the BDS 800, BDS 700 and BDS 600 home theatre systems bundle together the BDS 5 with 360-degree surround sound speakers and a powerful 200-watt subwoofer – to help the BDS 5 blow audiences away both near and far.</p> <p>SAP: BDS 5 SO/230 EAN:</p>	<p>3260</p>

	<p><b>Harman Kardon® SB 15</b></p> <p>Home theater installations typically involve five loudspeakers, a subwoofer or two, and lots and lots of speaker wire. Not every room can accommodate all that stuff, and not every homeowner wants to live with it. The Harman Kardon home cinema soundbar system offers an elegant and far simpler alternative: a single amplified loudspeaker unit connected directly to your television, DVD player or game console, and a single wireless subwoofer that you may place anywhere in the room. Offering traditional stereo playback or realistic 3D surround-sound processing, the SB 15 delivers true Harman Kardon performance with the absolute minimum number of components, and with no wires in (or out of) sight.</p> <p>SAP: SB 15/230 <span style="float: right;">EAN: 282925084550</span></p>		2150
	<p><b>Harman Kardon® SB 10</b></p> <p>A complete 3.1-channel sound system comprised of just two components, the Harman Kardon SB 10 speaker system adds dramatic, high-definition sound to any viewing experience. The sleek central soundbar houses voice-matched left-, right- and centre-channel speakers for outstanding stereo imaging and clean, distinct dialogue, while a 200-watt powered subwoofer delivers the deep, visceral bass so essential to today's most exciting movies. Choose your AV receiver's virtual surround-sound mode for realistic 3D imaging, or add an additional pair of speakers to build a true 5.1-channel system.</p> <p>SAP: SB 10/230 <span style="float: right;">EAN: 282922577666</span></p>		1640
